

# EXPANDED Clinical Training

Curriculum-approved placements  
for your students

## Connecting Schools and Clinics

Medical schools across the U.S. benefit from access to the 300+ clinical sites on the AMO platform. With AMO, design new clinical sites in five easy steps.

1. Your school's coordinators share curricular requirements with AMO.
2. Coordinators request rotations by specialty, location, month, type, or site.
3. AMO works with our clinical partners to identify qualifying sites.
4. Your school approves identified sites and affiliation agreements are signed.
5. Coordinators share enrollment information with AMO and students are enrolled.

## AMO Partner Benefits

- View and search for clinical training sites nationwide that meet your students' needs.
- No required minimum number of students.
- No upfront fees, no monthly/yearly fees.
- Priority access to ACGME hospitals that become available for direct affiliation.
- Oversight of student progress, tracking, and reporting via manager account.
- Access to partner discounts for your students.
- View the most up-to-date information on available programs, including start and end dates, and site information.
- Upload documents, create applications, and reserve spots on behalf of your students.
- Assistance with timely submission of preceptor evaluation forms.
