

EXPAND Your Clinical Site Network

AMO's Extensive Network Helps Fill Your Clinical Training Gaps

Leverage AMO's Network

From replacing canceled rotations to meeting students' out-of-state or out-of-network requests, AMO's platform allows you to reserve student spots up to two years in advance. Utilize AMO's clinical rotation software, knowing you can view all available programs in real-time and lean on our recruitment efforts in areas that are the biggest difficulty.

When a physician cancels a rotation, it can leave both your students and coordinators in a bind. Leveraging AMO's network of 300+ clinical sites across the country not only helps you replace the site with ease, but it gives students more choice in where they rotate.

Support for You and Your Students

With AMO, alleviate the administrative burdens that come with planning clinical training while ensuring your students are supported throughout their rotations.

Partner School Benefits

- View and search for clinical training sites that meet student needs
- Oversee student progress, tracking, and reporting
- Upload documents, create applications, and reserve spots on behalf of students

Student Benefits

- Housing and transportation support
- Assistance with timely submission of LoRs
- Nationwide access to clinical experience to help them match

Accreditation-Approved Consulting

Whether opening a new campus, going through an accreditation process or expanding class sizes, AMO's consulting services ensure your school has the clinical sites it needs to reach your goals and the right hospital or health system affiliation agreements in place.
