

AMO Clinical Site Recruitment Services

Since 2019, the AMO opportunities clinical recruitment team has increased the clinical rotations on our platform exponentially. Now we're putting our clinical recruitment team to work for you.

AMO's Clinical Recruitment Services is a streamlined approach to adding preceptors and sites to your school's clinical offerings.

With AMO's recruitment infrastructure, we can support or lead your clinical recruitment efforts, customizing our services and reporting to meet your school's needs and accreditation requirements.

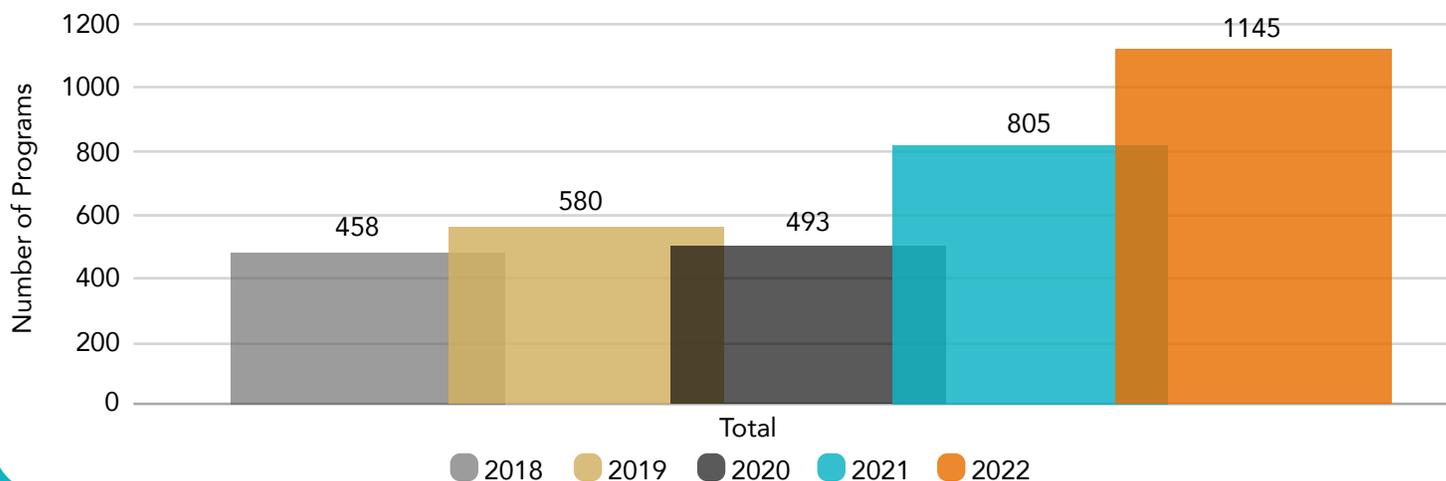

Benefits

- Dedicated time from the AMO team to recruit programs that meet your needs. This includes outreach, initial contact to determine interest/fit, and hand off to your team.
- AMO recruits on your behalf to help you secure new clinical sites that are part of your institution offerings. These become your dedicated sites that you will always have first access to.
- Access to our medical education expertise, including clinician contracting, affiliation agreements, insurance, and strategic guidance.
- Detailed reporting to help you determine ROI. Our data team will provide regular summaries of key metrics that track the efficacy of all outreach efforts. As each institution has different priorities, we customize our reporting to what you need.

Number of Active Programs Offered by AMO 2018-2022
