

Clinical Rotations at Duly Health and Care

AMOpportunities and Duly Health and Care—the largest independent healthcare organization in the Midwest—have formed an exclusive partnership to expand clinical training access to international medical students and graduates.

TEACHING EQUALS TRAINING

In 2022, AMO and Duly began discussing solutions to expand hosting and educational opportunities for Duly physicians. AMO's clinical training marketplace and management platform were the perfect solutions.

Through AMO's exclusive partnership with Duly, physicians host rotations that trainees can apply to on the AMO marketplace without the administrative burden often associated with clinical training. This allows Duly preceptors to put more focus on training, which leads to stronger clinical experiences.

AN ADVANTAGE FOR SCHOOLS

Establish a Free Partnership

Your school's partnership with AMO has no minimum enrollment requirements and allows you to retain your current clinical sites.

Management Platform

Enjoy free access to the AMO management platform, which centralizes student tracking and program details.

Program Design

AMO works with your school coordinators and Duly to identify programs that fit your curriculum requirements.

Enrollment

Your school can enroll students or have them independently enroll. Either way, be assured your students are earning credit for their rotations.
