

Hosting Nursing Students with AMO

REASONS TO OFFER NURSING ROTATIONS

Opportunity to earn a stipend for teaching

Attract nursing talent

Hosting allows you to expand your nursing applicants in the future when attendees seek out job opportunities.

Give back to aspiring healthcare professionals

Your mentorship can help students meet the practicum hours needed to graduate.

Fight nursing shortages

Clinical training can help increase the nursing workforce to meet growing needs among these individuals.

NURSING STUDENT ELIGIBILITY

We know your time and resources are valuable, which is why we work to bring top nursing students to your site.

Students working towards a BSN or MSN degree are eligible to participate in AMO nursing rotations. While international students are only eligible for observerships, some U.S. nursing students can complete hands-on experiences. These include nurse practitioners enrolled at our partner institutions.

NURSING PROGRAM REQUIREMENTS

Many nursing students use these experiences for school credit. As such nursing programs may require:

- A set number of practicum hours
- All hands-on activities to be supervised
- Preceptors to provide a current CV and photo ID when hosting students from partner nursing schools
- Additional school-specific paperwork to confirm activities and hours
